

Zoom: <https://ucibio.pt/l/GuestSeminars>. Date & time TBA

2022
SEP
13

Nurit Ashkenasy, Ben-Gurion University of the Negev, Israel

Peptide Tailored Smart Surfaces

Host: Cecília Roque, Biomolecular Engineering Lab, FCT NOVA

2022
OCT
11

Alejandra Prieto-Dávo, Universidad Nacional Autónoma de México

A metagenomics view of the microbial communities of the Maya underworld and their potential for natural product discovery

Host: Susana Gaudêncio, Blue Biotechnology & Biomedicine Lab, FCT NOVA

2022
OCT
13

Wolfgang Fritzsche, Leibniz-Institute of Photonic Technology, Germany

Bioanalytics using plasmonic nanoparticles

Host: Pedro Viana Baptista, Nanomedicine Lab, FCT NOVA

2022
NOV
11

Fabio Arturo Iannotti, Institute of Biomolecular Chemistry, National Research Council of Italy

Unravelling new pathways and innovative perspectives for treating rare skeletal muscle disorders: focus on the endocannabinoid system and its interplay with the gut microbiota

Host: Natércia Teixeira, Drug Targets and Biomarkers Lab, FFUP

2022
NOV
24

Vasco Barreto, UCIBIO, FCT NOVA

Beyond B Cells

Host: Pedro Viana Baptista, Nanomedicine Lab, FCT NOVA

2022
DEC
13

José Rino, Instituto de Medicina Molecular João Lobo Antunes

Functional imaging: looking at molecular dynamics and interactions with a confocal microscope

Host: Ana Rita Grosso, Computational Multi-Omics Lab, FCT NOVA

2023
JAN
12

Sophie Helaine, Harvard Medical School Department of Microbiology, USA

Unlocking antibiotic persisters during infection

Host: Jaime Mota, Infection Biology Lab, FCT NOVA

Zoom: <https://ucibio.pt//GuestSeminars>. Date & time TBA

2023
MAR
24

Diana Madeira, Centre for Environmental and Marine Studies (CESAM), University of Aveiro
Unravelling life-history changes and proteomic signatures of a marine annelid under transgenerational exposure to ocean warming

Host: Mário Diniz, BioTox Lab, FCT NOVA

2023
APR
03

Christian Salesse, Département d'ophtalmologie, Université Laval; Québec, Canada
The use and misuse of protein tags to express and purify proteins of interest

Host: Cecília Roque, Biomolecular Engineering Lab, FCT NOVA

2023
MAY

Host: Sofia Pauleta, Microbial Stress Lab, FCT NOVA

2023
JUN

Host: Maria A.M. Reis, Biochemical Engineering Lab, FCT NOVA

2023
JUL

Host: Alice S. Pereira and Pedro Tavares, Molecular Biophysics Lab, FCT NOVA

2023
SEP

Host: Luísa Peixe, BacT_Drugs Lab, FFUP
